## STUDENTS ' MINISTRY AT CMF-K

We have continued to support healthcare students to be committed Christians as well as future Reliable professionals. Linking students with Mission Hospitals has been a core area of ensuring They get exposed to what is expected of them in their future careers.

*"I am grateful to God for the opportunity to do my electives at Tumutumu. The medical staffs enlightened us as they exposed us to most of the hospital procedure. Walking around the hospital*

*corridors with countless Bible verses displayed, reminded me that I am surely to serve God in my career."* Says Mary Wanjiru– K.U student who did her electives at PCEA Tumutumu Mission Hospital.

*"The consultants were great, they have become our role models. We learnt a lot through the interns about being a primary healthcare giver. The internship is tough work, but Wednesdays were refreshing days as we would get time in prayer, which refreshed us. We are grateful to God for the CMF-K Family."* Winnie C. Murugi & Jacob W.
