

## **JUNIOR HEALTH CARE PROFESSIONALS ANNUAL GET TOGETHER**

### **Introduction**

The inspiration behind this event is to provide an opportunity for the junior health care professionals to interact for fellowship, networking and professional growth. This came after noticing that many junior professionals were falling out of salvation after getting into the work place, there was a big membership gap between the students and the older generations. CMF-K future lies with the Junior Professionals and therefore we must invest in them. The first such event was held in October 2016 in Nakuru at Dr. Fred Mugo's home

### **Objectives**

- To encourage the junior professionals to keep their faith
- To connect them with the regional fellowships and senior doctors in various hospitals for fellowship and mentor-ship
- To mobilize them for CMF-K upcoming activities and involvement in the students' mentorship
- To share their experiences, success stories and challenges at their work places and find a way forward
- To build up ownership of CMF-K at an early age
- To get financial commitment for CMF-K

### **Scope**

This will target the professionals who have cleared their undergraduate studies within 5years and below. A few senior professionals can be invited for mentorship and interacting with the junior professionals. A few students can also be invited for continuity and mentorship

### **Planning**

Planning will be done by a committee with representatives from each of the Universities with graduate health care professionals. The planning will be led by the representatives of junior professionals in the board. Planning will start in June so as to have enough time to mobilize and plan.

The event was proposed to be held every October; this can change depending on the feeling of those involved.

### **Program**

The program is left at the discretion of the planning committee to agree on how it will run, the facilitators and the activities to be done. However, the program should ensure that the 5 objectives are met and there are interactive sessions. The venue will be at a place that the committee will agree on

### **Funding**

Each participant will pay for their own cost unless the planning committee states otherwise but with the Board's approval. The whole event should be self-financing with no finance support from the office.

### **Monitoring and Evaluation**

A comprehensive report will be done, follow up their involvement in CMF-K activities and student mentorship. Follow up on their financial commitment to CMF-K and keep track of their engagement in regional fellowships.
